claims.

Mr. Baker is a very fluent, rapid speaker, and chained the attention of the House by his empassioned remarks. Of those who spoke to-day, the whigs were as warm, of those who spoke to-day, the whigs were as warm, in asserting the claim to Oregon as the locofocos were. Mr. Winthrop's remarks seemed to please the Celhoun party very much. Mr. Dallas, Gov Seward, Thomas Ritchie, and several of the Senators, as well as strangers from abroad, were present, and the galleries were crowded with ladies.

Mr. McDowell, of Ohio, obtained the floor, when a motion to adjourn was carried.

ALBANY, Jan. 2, 1846. The Speakership-The Governor's Message-New Year's Calls-The War Feeling-Bal Costume-

The opinion seems to be gaining ground that Col. Crain, of Herkimer, will not succeed in his election to the Speakership. The od is are at present in favor of Benjamin Bailey, of Putnam. The whigs will probably run Ira Harris, of Albany, for peaker, and there is a possibility of his election, if the Hunkers and Barnburners "split." The legislative caucus will be held on the evening of Monday next The mail leaves this city, for New York, at midnight, but I shall report the proceedings of the caucus in my letter of Monday night.

A gentleman in the confidence of the Governor, told

Me yesterday that the message was ready for delivery. A great deal will be said about a "sinking fund" from the canal revenues, for the purpose of paying the canal debt at some indefinite period. The prospect is, that the earsal revenue will continue to be apprepriated to other purposes than the payment of the canal debt. In 1844, the revenue from all sources, applicable to the support of government—including half of the mill tax—was 8887 ar7 99. The revenue from all the State canals was \$2,628 615 94. On the other hand, the expenses of government, and for the maintenance of canals, was \$2,721,641 48. Here you have a surplus of all revenue, over expenses, of \$700,924.84 — not even enough to pay half the interest on your canal debt, which is \$1,126.297. 90, annually. The Legislature of New York should not have the power to create a State debt, under any plea whatever—except, perhaps, in case of civil war. This menner of contracting enormous debts, under the pretext, of improvement and embellishment, (when it can be made a matter of individual or corporate speculation) will not always be tolerated by tax payers. If it is tolerated, it will not require more than a third of a century to establish the European system of taxation in this State and nation. This message will be of a high moral tone—of, perhaps, unprecedented prolixity—rather supercilious—and very national in its general aspect. I suppose you will instruct your express agent as to tix despatch.

Yesterday was "N w Year's." Every body, almost, celebrated the day in some way or other. The independent military companies in the city weited upon the Governor, at the capitol, and the citizens generally availed themselves of the opportunity to "shake hands" with His Excellency. Several hundred went through the ceremony during the day, and the risible muscles of the pat, and the risible muscles of the pat, and the city weited upon the Governor, at the capitol, during the over an of the day, and the presentation of a rich and cooking. The military thronged the c

and accomplishment.

The weather is very warm. We are in the midst of a "January thaw." A sprinkle of snow commenced falling last night, which changed into rain before morning, and it has continued to fall all day in a perfect deluge. The fine sleighing is making its exemit. The Capitol will be most brilliantly lighted with gas during the evening sittings.

Boston, January 3, 1846. The Weather-New Invention-The Holydays-Collector Morton-The Repealers and Oregon-

Yesterday was rainy and foggy-a regular "Janu. ary thaw"-and the sidewalks, which had before been coated over with ice, so as to render pedestri now clear again. At this result there is much rejoicing. as is clearly shown by the throng of gay and happy pro-menaders, up and down Washington street to-day, in spite of the wet and mud. I perceive that some shrewd and calculating Yankee has invented a "metalic gum elastic over shoe," the bottom of which is coated with

and calculating Yankee has invented a "metalic gum elastic over shoe," the bottom of which is coated with sand, to wear when there is danger of slipping. He deserves to make a fortune by the invention, if it shall answer the purpose. It is no very pleasant joke to find yourself suddenly sprawling on the pave, with a score of by-standers laughing at what should bring tears of sympathy and condolence. It is a singular fact, which can be accounted for only by the natural pervessity of the human heart, that nine out of ten who witness the downfall of a comrade, will turn round and chuckle at his mishap.

The Christmas and New Year's holydays have been more generally observed than formerly. The shop windows in Washington street have exhibited every variety of articles suited to the season, and the retail trade in toys has been immense. The children have all had their presents, and the sweethearts their "forget-me nots," for the new year, which has been ushered in with great enthusiasm. The signs of rejoicing and merriment are still visible on all sides. Paople have generally been prosperous in their business the past year, and now is the time to dence and sing, eat, drink, and be merry.

Considerable anxiety is felt among politicians here in relation to the nominations now before the Senate. The great question with us is whether Marcus Morton will be confirmed. His friends think he will be, while his opponents confidently express their belief that he will be rejected. They even go so far as to say that the Senators have been sounded on this question, and a majority accertained to be against the ex-Goverfor. Whether this report is well founded or not, I am unable to say. The inferior officers in the Custom House, under Morton, except amongst themselves. It he is confirmed, some of these who secured places under the Tyler administration, and have not yet been removed. They are quite cautions, however, shout saying any thing against Morton, except amongst themselves. It he is confirmed, some of the batch he has appoint

have an opportunity to follow their master into retirement.

The Boston Repeal Association held their regular monthly meeting on Tuesday evening, at which, among other doings, they passed the following resolutions, which I copy from the Pilot of this morning:—
"Resolved, That whenever the U. S. government shall deem it necessary—in defence of the clear and unquestionable right of this country to its own territory—to call for a volunteer enlistment for the defence of the Oregon territory, or parts adjacent thereto, this association will preceed to open a subscription to receive the names of volunteers for that purpose.
"Resolved, That a certified copy of the foregoing resolution, be transmitted to the President of the United States."

There is a spunk, and a readiness to fight, not only

There is a spunk, and a readiness to fight, not only for Oregon, (upto 54, I suppose) but for "parts adjacent thereto," which will, doubtless, encourage the President's heart, and induce him to "keep a stiff upper lies".

cent thereto," which will, doubtless, encourage the President's heart, and induce him to "keep a stiff upper lip."

A few years since, the Montgomery Guards (trish) were mebbed, and driven off of Boston Common, and finally compelled to disband, because certain wise people judged that the existence of such a corps would endanger the stability of our institutions?

The "small potates" robbers still continue their depredations upon the costs, bats, umbrellas, &c., of our citizens, with an accasional grab at something more valuable. I was myself a sufferer to a small extent, a short time ago, and owe the rascals a hearty grudge, which shall be paid off as thave opportunity.

Boston is getting to be a very naughty place. A great many things are done here which ought to be done, and many left undone which ought to be done. Nevertheless, we are a very self-righteous people; we make long prayers at the corners of the streets, to be seen of men, while many widows and fatherless children are suffered to go cold and hungry, because we love to heard up the lucre, and riot in luxury.

P. S. Aware of the opinion in general entertained of those who obtrude their skill upon the public (multitudes of whom are seen in almost every paper), it is considered a dutyto give the following statement as the ground on which this littlebook claims especial confidence:

Besides the author's rank as Graduate of Edinburgh &c.—his former works ou medicine, viz. The 'Domestic Guide to Medecine,' which has passed through several editions, Treatiss on Dyspepsia, on the Epidemic Cholera, &c., &c., he has testimonial letters from the most eminent physicians of kartore to the most eminent in America, as Sir Astley Cooper to Dr Mott of this city, Dr. Physick of Philadelphia, and others, and which is most gratifying, has permission to refer to almost severy physician of Saminence in the city.

The author has lately observed that several pretenders have an early imitated his advertisements, and the title of its book, as they could do: but those who should unfortunate by happen to be misled will very soon detect the imposture.

ON CERTAIN IMPORTANT MALADIES.

THE AUTHOR of the "FRIVATE TREATISE." DR. RALPH, began to state that he is at home is much as positive peculiary disorders referred to in this nittle volume, per annully or by post, at his residence, 88 Greenwich street, New York, and especially to observe that he subject of his cusualtations is not confined to these complantaajone—but embraces the whole of those which he range and important consequence of disease—in a former advertise which were mistaken flower man the least and the subject of his cusualtations is not confined to these complantaajone—but embraces the whole of those which he range and the best proposed to the belong to the remarks of the confined to th rity of mind invariably returns.

With respect to the cure of Stricture—this, it is gratifying to state, is geherally accomplished is very little time, and without pain or inconvenience. Nothing can exceed the improvement of late years in the treatment of this complish. Indeed, in the hands of proper and experienced persons, the care of Stricture is now accomplished in as many days as formerly it demanded months. Many persons consult the writer who come on busi-

peculiar means of care, together with has "Private Treaties," which has an interesting chapte, giving every information on the subject, and written in the plainest manner; and which, being enclosed in a little methogany chest, can be safely sent to any distance.

In consequence of the number of pretenders and books o quackery which intest this city, he deems it proper to make the following statement, as a satisfactory ground of confidence to strangers. Besides his rank as Gradunts of Edinburgh, &c. &c., he has published three editions of a work expressly on these complaints. Also, he has letters from the most eminent physicians in Europe to the most eminent in America—as Sir Astley Gopper, of London, to Dr. Mott, of New York; Dr. Thysic, of Fhiladelphia, and others, and is permitted to refer to almost every Physician of eminence in this city. Address Dr. Ralph, 184Coreanwich street.

DR. CONVERS' INVIGORATING CORDIAL FOR GENITAL DEBILITY, IMPOTENCY, INCON TINENCE, OR NOCTURNAL Emissions, &c. 17HIS CELEBRATED AND POWERFUL REMEDY has long been used with the most happy effect, in the practice of the most eminent physicians and surgeons in the fictials Empire, France and disremay. Indeed, so remarkable were the curre that the late "Shr Astley" haled it as the "hyrbugger of life." The use of the Cordiai will fully sustain the high encomium. The highest medical authorities in the United States recommend it as superior to say other article for the permanent cure of the above distressing complaints.
